SUMMARY

An inquiring frontend developer with an analytical mind. I have strong soft skills and I feel passionate about technologies. I'm ready to deliver a result using JavaScript, AJAX, React, React Native, Redux, Typescript, Sass / Scss, BEM, HTML, CSS and many related frontend technologies. Also, presently I'm working on learning backend, Node.js / Express, REST API, Next.js, GraphQL, to become full-stack developer in the nearest future. I am closely familiar with American culture. And last but not the least, I am ready to work hard.
