SUMMARY

An inquiring frontend developer with an analytical mind. I have strong soft skills and I feel passionate about technologies. I'm ready to deliver a result using JavaScript, AJAX, React, React Native, Redux, Typescript, Sass / Scss, BEM, HTML, CSS and many related frontend technologies.

Also, presently I'm working on learning backend, to become full-stack developer in the nearest future. I am closely familiar with American culture. And last but not the least, I am ready to work hard.

SKILLS

- Languages: **JavaScript, Typescript, Python3, SQL**
- Libraries and frameworks: **ReactJS, React Native, Redux + Thunk / Saga, GraphQL, Websockets, React Router, Bootstrap, Foundation, Node.js, Express**
- Technologies: **HTML5, CSS3, SASS / SCSS, JavaScript**
- Methodologies: **Pixel-perfect, BEM Cross-browser semantic and responsive, OOP, Microfrontends**
- Core Soft-skills: **emotional intelligence, communication, familiarity with business and American culture**
