SUMMARY

A curious frontend developer with an analytical mind. I have strong soft skills and I feel passionate about technologies. I'm ready to deliver results using HTML, CSS / SASS / SCSS, JavaScript, React, Redux, Typescript and many related frontend technologies.

Have experience in backend development using Node.js as well, mostly on pet projects
Planning to develop these skills to become a full stack developer in the future

SKILLS

- Languages: **JavaScript, Typescript, SQL**
- Libraries and frameworks: **ReactJS, React Native, Redux + Thunk / Saga, GraphQL, Websockets, React Router, Bootstrap, Node.js, Express**
- Technologies: **HTML5, CSS3, SASS / SCSS, JavaScript**
- Methodologies: **Pixel-perfect, BEM Cross-browser semantic and responsive, OOP, Microfrontends**
- Core Soft-skills: **emotional intelligence, communication, familiarity with business and American culture**
